

Message of Greetings to the International Peace Conference in Turkey

We, Berlin peace activists, declare our solidarity with your International Peace Conference, taking place from the 25th to the 29th of April, 2013 on the issue of

"Imperialists out of Middle East! Stop War, stop NATO!"

in Istanbul and in Antiochia.

We will be demanding, within the scope of a solemn vigil, which we will hold on Friday, 26.4, an end to the fighting and peace for the Syrian people, and at the same time, demand from the government of the Federal Republic of Germany to remove the Patriot Missiles and AWACSS stationed on the Turkish - Syrian border. Should NATO end up using them, the results would be disastrous, and not only for Syria. Every intervention from outside is contrary to international law and could result in the feared outbreak of war throughout the entire region.

Therefore we are demanding:

No Interference in Syria!

Stop the Arms deliveries!

Dialogue and Negotiations between Government and Opposition!

We want to contribute to the international struggle against all forms of intervention, which are contrary to international law, and also express our criticism of the participation of the German Federal Government.

We wish the conference to be a great success and would be very pleased if you would inform us of your results.

In solidarity:

Groups from the Berlin Peace Coordination
German Freethinker's Society inc., Association from Berlin
Turkish and Kurdish peace activists
